Complaints must be in writing and filed within 180 days of the date you discovered the alleged discrimination. The complaint must contain your name and address and describe the discrimination you are complaining about. After we get your complaint, we will review it and notify you in writing about whether we have authority to investigate. If we do, we will investigate the complaint.

DHS will notify you in writing of the investigation's outcome. You have the right to appeal the outcome if you disagree with the decision. To appeal, you must send a written request to have DHS review the investigation outcome. Be brief and state why you disagree with the decision. Include additional information you think is important.

If you file a complaint in this way, the people who work for the agency named in the complaint cannot retaliate against you. This means they cannot punish you in any way for filing a complaint. Filing a complaint in this way does not stop you from seeking out other legal or administrative actions.

American Indians can continue or begin to use tribal and Indian Health Services (IHS) clinics. We will not require prior approval or impose any conditions for you to get services at these clinics. For elders age 65 years and older this includes Elderly Waiver (EW) services accessed through the tribe. If a doctor or other provider in a tribal or IHS clinic refers you to a provider in our network, we will not require you to see your primary care provider prior to the referral.

IMPORTANT INFORMATION

What is a list of covered drugs?

A list of covered drugs includes the prescription drugs covered by Blue Plus. The drugs on the list are selected by Blue Plus with the help of a team of doctors and pharmacists. Blue Plus will generally cover the drugs listed in the list of covered drugs as long as the drug is medically necessary, the prescription is filled at a Blue Plus network pharmacy, and other requirements related to the drug are followed.

Does the list of covered drugs ever change?

The Blue Plus list of covered drugs can change during the course of a calendar year. If changes affect the coverage of a drug you are taking, Blue Plus will make reasonable efforts to contact you and your prescriber to tell you about the change. Blue Plus will also tell you about alternative drugs that are covered.

Examples of some changes that may occur are:

- A drug you are taking is no longer preferred (See “What is a Preferred Drug List?” below).
- A drug is removed from the list of covered drugs for safety reasons.
- Prior authorization requirements have changed. (See “Are there any restrictions on my coverage?”)

How are drugs listed in the list of covered drugs?

There are three ways to find your drug within the formulary:

1. Medical Condition

The formulary begins on page 2. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Heart and Circulatory Drugs.” If you know what your drug is used for, look for the category name in the list that begins on page 2. Then look under the category name for your drug.

2. Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the index that begins on page 179. The index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the index. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

3. Blue Plus Over-The-Counter Drug Listing

Blue Plus covers certain over-the-counter (OTC) drugs at little or no cost to you if you’re a member of Blue Advantage or MinnesotaCare. OTC drugs are included in the drug categories depending on the type of medical condition they are used to treat. For example, some drugs used to treat allergies are listed under the category “Cough/Cold/Allergy.”

What is a Preferred Drug List?

In Minnesota, all health plans are required to use the Minnesota Department of Human Services' (DHS) Preferred Drug List (PDL). The PDL is created by DHS, in consultation with the Drug Formulary Committee, to let prescribers and members know about drugs or drug classes that are cost effective. Generally, drugs that are "preferred" are more cost effective and drugs that are "non-preferred" are less cost effective. Preferred drugs are available to members with fewer restrictions. Non-preferred drugs require a prior authorization. To get a non-preferred drug, your doctor or health care provider must get prior authorization. The PDL is included as part of Blue Plus' list of covered drugs. Blue Plus' complete list of covered drugs includes other drugs in addition to those on the PDL. The PDL is available on DHS's *website* at <http://minnesota.magellanmedicaid.com/pdl.asp>.

What are generic or biosimilar drugs?

A generic drug is approved by the Food and Drug Administration (FDA) and has the same active ingredients as the brand name drug. It produces the same clinical effect as the brand name drug.

A biosimilar drug is an FDA-approved biologic drug (most often an injectable prescription drug) that is highly similar to an already-approved biological product. It has no clinically meaningful differences in terms of safety and effectiveness. Biosimilar drugs are not the same as generic drugs, but like generics, biosimilar drugs may offer more affordable treatment options.

Generic or biosimilar substitution means a generic version or biosimilar version of a drug is given instead of the brand name or non-biosimilar version of the drug.

Blue Plus will cover the brand name or non-biosimilar version of the drug only when:

1. Your prescriber informs Blue Plus in writing that the brand name or non-biosimilar version of the drug is medically necessary; OR
2. Blue Plus may prefer the dispensing of certain brand-name version over the generic or non-biosimilar version over the biosimilar version of the drug; OR
3. Minnesota law requires the dispensing of the brand name or non-biosimilar version of the drug.

Within the list of covered drugs, brand name drugs are capitalized (e.g., ZYTIGA) and generic drugs are listed in lowercase boldface (e.g., **valproic acid**).

What are over-the-counter drugs?

Drugs and products that are available for purchase without a prescription are referred to as over-the-counter (OTC). Although an OTC product is available without a prescription, if a doctor writes a prescription for an OTC product, Blue Plus may cover it. Within the list of covered drugs, OTC drugs and products are identified by the abbreviation OTC-C in the Drug Status column in the list.

What are specialty drugs?

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially trained pharmacist.

If you are prescribed a drug that is on the Blue Plus Specialty Drug List, your prescriber will need to send the prescription to one of Blue Plus' specialty pharmacies listed here.

You will also need to call the specialty pharmacy where your prescription is sent to set up an account. You will need to have your Blue Plus member identification card when you call the specialty pharmacy.

What if a drug is not on the list of covered drugs?

Not all drugs are covered. If a drug you want to take is not listed in the list of covered drugs, you can call Member Services at **1-800-711-9862** (toll free), TTY **711** and ask if the drug is covered. If not, it is considered a "non-formulary" drug. If you need a drug that is not included in the list of covered drugs, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Blue Plus.

When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by Blue Plus.

- You can ask Blue Plus to make an exception and cover your drug. See below for information about how to request an exception.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include the following:

- **Prior authorization:** Blue Plus requires you or your doctor to get prior authorization for certain drugs. This means that you will need to get approval from Blue Plus before you fill your prescription. If you don't get approval, Blue Plus may not cover the drug.
- **Quantity limits:** For certain drugs, Blue Plus limits the amount of the drug that we will cover.
- **Age requirements:** Some drugs have age requirements. A prior authorization may be needed depending on your age and the specific drug prescribed.

You can find out if your drug requires prior authorization, has quantity limits, or has an age requirement by looking in this list of covered drugs. An exception to a drug restriction or limit can be made if your doctor submits a statement or documentation supporting the request. See Section 7: Covered Services (Prescription Drugs) in your Member Handbook for more information. You can also get more information about the restrictions applied to specific covered drugs by calling Member Services at **1-800-711-9862** (toll free), TTY **711** or by visiting our website at bluecrossmn.com/publicprograms. Also see "Can I ask for an exception to the coverage restrictions?"

- **Excluded drugs:** Some drugs are excluded from the list of covered drugs. This means they are not covered. Excluded drugs include the following:
 - Drugs used to treat sexual or erectile dysfunction
 - Drugs used to enhance fertility
 - Drugs used for cosmetic purposes, including drugs to treat hair loss
 - Drugs or products to promote weight loss
 - Drugs not clinically proven to be effective
 - Investigational or experimental drugs
 - Medical cannabis

Can I ask for an exception to the coverage restrictions?

Yes. You or your health care provider can get the Formulary exception prescriber fax form from bluecrossmn.com/publicprograms or by calling Member Services at **1-800-711-9862** (toll free), TTY **711**. Your provider must return this form to the fax number or address listed on the document. To allow for a thorough review and to ensure that you or your health care provider gets a response within 24 hours, all information requested in the form should be provided, including documentation of which medications have been tried and failed, including the dosages used and the reason for failure (e.g. side effects).

What will a prescription cost?

All copay information for prescriptions is listed in the Member Handbook in Section 6: Cost-Sharing. If you have additional questions, call Member Services at **1-800-711-9862** (toll free), TTY **711** or visit our website at bluecrossmn.com/publicprograms.
