### **How United Concordia Builds Dental Networks**

To build our dental networks, we look at many geographic and market factors including how many practicing primary and specialty dentists there are in a specific area to help us determine if there are enough dentists available to meet the dental health care needs of our members. Additional factors such as access and availability, credentialing standards, participating dentist agreement requirements and quality standards also serve a vital role in building our networks.

To be eligible to participate in United Concordia's networks a dentist must:

- Hold an active, valid license to practice dentistry in the state(s) in which they practice.
- Complete a United Concordia or state-specific Credentialing Application.
- Demonstrate a utilization review pattern acceptable to United Concordia.
- Hold current professional liability insurance.
- Have no current sanction, termination or other peer review action by a professional review body, state dental board or Health and Human Service (HHS).
- Hold an active unrestricted federal Drug Enforcement Agency (DEA) certificate, if applicable.

Participating dentists are re-credentialed every three years. On an ongoing basis, we monitor for any sanctions, loss of license, fraud, waste or abuse activity and any potential quality of care concerns.

## Discrimination is Against the Law

The Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex, including sex stereotypes and gender identity. The Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex assigned at birth, gender identity or recorded gender. Furthermore, the Plan will not deny or limit coverage to any health service based on the fact that an individual's sex assigned at birth, gender identity, or recorded gender is different from the one to which such health service is ordinarily available. The Plan will not deny or limit coverage for a specific health service related to gender transition if such denial or limitation results in discriminating against a transgender individual.

The Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact the Civil Rights Coordinator.
